

9 DUBUDS

REPLACEMENT DUBUDS USER GUIDE:

1

Reset DUBUDS To Factory Settings

Press the DUBUDS Button on your new and old DUBUDS for approximately 8 seconds. The flashing light on both DUBUDS should turn black. This means they are now back at factory settings.

2

Reset The Primer

Hold the button on the right DUBUDS. And go through the normal sequence of Power On and Pairing.

3

Pair The Twin DUBUDS

Press the button on the left DUBUDS. And go through the normal sequence of power on. You should hear a beep which means it is connected.

4

Connect To Your Mobile Device

Normal connect to your wireless device should resume.

5

If The DUBUDS Does Not Connect?

Please repeat the sequence 1-4 above.
